

## AMENDMENTS TO THE SPECIFICATION

Before paragraph [0001], please insert the following title:

### FIELD OF THE INVENTION

Between paragraphs [0001] and [0002], please insert the following title:

### BACKGROUND AND SUMMARY

Between paragraphs [0014] and [0015], please insert the following title:

### BRIEF DESCRIPTION OF THE DRAWINGS

Between paragraphs [0017] and [0018], please insert the following title:

### DETAILED DESCRIPTION

Please replace Paragraph [0014] with the following paragraph rewritten in amendment format:

[0014] There is further provided a method of determining a free set operation of a fastener setting tool by measuring the load exerted on a blind fastener according to the method of ~~Claim 7 or Claim 8~~, comprising the step of determining the measured time difference between the mandrel entry load and the mandrel setting load of such fastener and comparing it against a predetermined time difference value indicative of an optimum setting time difference and generating an output signal in the event that the measured time difference is greater than the predetermined time difference indicative of a free set operation.
